- (1) Non-income producing securities.
- (2) The Company is a party to a registration rights agreement with respect to its Alibaba shares. The registration rights agreement contains certain provisions restricting the ability to sell the Alibaba shares in certain circumstances. As of March 31, 2018, some of the Company's Alibaba shares were held in the form of ordinary shares. The Alibaba ordinary shares would need to be converted to American Depositary Shares prior to any sale on the New York Stock Exchange. The Company also is a party to a joint venture agreement relating to Yahoo Japan. The joint venture agreement contains certain provisions restricting the ability of the Company to sell shares of Yahoo Japan in certain circumstances. Altaba commenced open market sales of its Yahoo Japan shares in April 2018, as previously disclosed. For a further description of these investments, see the Fund's Registration Statement on Form N-2.
- (3) Restricted security. Resale is contingent on issuer consent, aggregate holdings equal 122.0% of the net assets of the Fund.
- (4) All or a portion of this security has been pledged as collateral in connection with the Fund's Margin Loan agreement. As of March 31, 2018, the number of Alibaba shares pledged as collateral was 34,125,000 and the total value of securities pledged as collateral for the Margin Loan agreement was \$4.6 billion.
- (5) Fair-value security. Represents fair value measured in good faith under procedures approved by the Board of Directors, aggregate holdings equal 1.9% of the net assets of the Fund.

- (1) European style warrants.
- (2) The initial strike price of the written warrants was \$71.24. Counterparties to the written warrants may make adjustments to certain terms of the written warrants upon the occurrence of specified events, if the event results in a material change to the trading price of Altaba's common stock or the value of the written warrants. To date, following the announcement of the Stock Purchase Agreement pursuant to which Altaba (then known as Yahoo! Inc.) sold its operating business to Verizon Communications, Inc., four Counterparties have given Altaba notices of adjustments reducing their warrant exercise prices to a weighted average strike price of \$67.51. The adjusted weighted average strike price of \$67.51 was used in estimating the fair value of the written warrants as of March 31, 2018. Altaba is challenging the proposed adjustments made by the warrant Counterparties.
- (3) Fair-value security. Represents fair value measured in good faith under procedures approved by the Board of Directors, aggregate holdings equal (0.6)% of the net assets of the Fund.

At March 31, 2018, the tax basis cost of the Fund's investments and derivatives was \$14,857,092 and the unrealized appreciation and depreciation were \$72,716,104 and (\$6,236), respectively, with a net unrealized appreciation of \$72,709,868.

## Hierarchy of Fair Value Inputs

The Fund categorizes the inputs to valuation techniques used to value its investments into a disclosure hierarchy consisting of three levels as shown below:

Level 1—Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.

Level 2—Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates, and similar data.

Level 3—Unobservable inputs for the asset or liability to the extent that relevant observable inputs are not available, representing management's own assumptions about the assumptions that a market participant would use in valuing the asset or liability, and that would be based on the best information available.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety. The Fund intends to recognize transfers between Level 1, Level 2, and Level 3 as of the beginning of the reporting period.

The following table reflects the valuation level used in the consolidated schedule of investments as of March 31, 2018 for the Fund's assets (in thousands):

The change in unrealized appreciation (depreciation) attributable to securities owned on March 31, 2018, which were valued using significant unobservable inputs (Level 3) amounted to \$(20,477).

The fair values of Altaba's Level 1 financial assets and liabilities are based on quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access. The fair values of Altaba's Level 2 financial assets and liabilities are obtained using quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets in markets that are not active; and inputs other than quoted prices (e.g., interest rates and yield curves). Altaba utilizes a pricing service to assist in obtaining fair value pricing for the marketable debt securities. The fair value for Altaba's Level 3 financial assets were obtained using a variety of techniques including Black-Scholes models, market approaches, and income approaches.

The balance for the Fund's assets and liabilities measured at fair value on a recurring basis using significant unobservable inputs (Level 3) as of March 31, 2018 was \$875 million, net.

#### ***Convertible Senior Notes***

In 2013, Altaba issued \$1.4375 billion aggregate principal amount of 0.00% Convertible Senior Notes due in 2018. The Convertible Notes are carried at their original issuance value, net of unamortized debt discount, and are not marked to market each period. The approximate estimated fair value of the Convertible Notes as of March 31, 2018 was \$1.4 billion. The estimated fair value of the Convertible Notes was determined on the basis of interpolated market prices.

### ***Quantitative Disclosure of Derivative Holdings***

The following tables show additional disclosures related to the Fund's derivative and hedging activities, including how such activities are accounted for on the Fund's financial positions. The Fund entered into several transactions to hedge the impact of dilution from potential exercise of the Convertible Notes. In conjunction with the hedge transactions, the Fund sold written warrants to reduce the overall cost of the hedge. These derivatives are not accounted for as hedging instruments.

There is no master netting arrangement policy on these derivatives.

**CERTIFICATIONS**

I, Thomas J. McNerney, certify that:

1. I have reviewed this report on Form N-Q of Altaba Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the schedules of investments included in this report fairly present in all material respects the investments of the registrant as of the end of the fiscal quarter for which the report is filed;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940) and internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of a date within 90 days prior to the filing date of this report, based on such evaluation;
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize, and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
